

Torkel Thoresen, Chief Technologist of Broadcast Technologies, Telenor Satellite Broadcasting AS.

---

Torkel Aamodt Thoresen was educated at Oslo College of Engineering and the University of Oslo.

He is the Chief Technologist of broadcast technologies at Telenor Satellite Broadcasting AS and plays a huge role in researching and implementing new technologies to improve their broadcast services. Besides being responsible for the satellite broadcasting network for Telenor, he was the chief DVB architect for planning the Norwegian DTT network.

He also represents Telenor in DVB-CM-3DTV.

Before joining Telenor, he worked for the Norwegian Broadcasting Corporation (NRK), where he was involved in the planning of the 1994 Winter Olympics in Lillehammer and the regionalisation of NRK's news broadcasting in 1999.
